Navigating the Now: IT Trends & Cyber Smarts in a Ridiculously Fast-Paced World

From digital transformation and AI to data privacy and cyber threats, this session will equip operators and industry professionals with real-world insights and practical strategies to stay ahead, stay secure, and stay competitive.

What to Expect:

The Now & Next of IT – Discover the tech trends driving change in operations, guest experience, and business growth.

Cybersecurity in Real Life – Learn simple, actionable steps to protect your business from cyber risks – even if you're not tech-savvy.

Smart Tech, Smart Strategy – Hear how leading operators are using technology to work smarter, not harder.

Expert Advice, No Jargon – An engaging conversation with industry and tech professionals who understand the unique needs of our sector.

Whether you're a digital native or just starting your tech journey, this session will leave you better equipped to navigate today's fast-paced digital world with confidence and clarity.
